# Instructions

## Objective

Introduces basic addition, subtraction, and the concept of numerical weight/value.

## Preparation

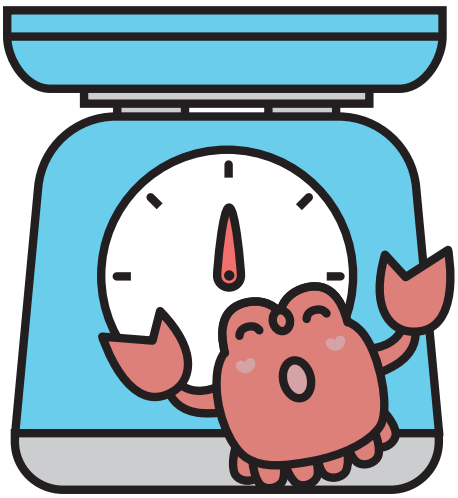

Cut out all the fruit tokens (strawberries, oranges, pears, and bananas) from Pages 3, 4, and 5.

## How to Play

**Game 1 (Basic Counting)**
Pick a scale with fruits already on it (e.g., Page 2) and have your child count the total number of items.

**Game 2 (The Weight Master)**
Use the "Weight Key" ( 🍓 =1, 🍊 =2, 🍐 =3, 🍌 =4). Ask your child to calculate the total "weight" on a scale by adding the values of the fruits together.

**Finish**
Have your child write the total count or total weight in the white circle on the scale.

Please cut along the solid line.
