- Say it out loud in a sing-song voice — you will, a lot.
- Older siblings love being asked to choose.
- A family nickname makes a sweet keepsake.

CUDDLE TIME, THE SAFE WAY

A few notes for the grown-ups

Awake & together.
PaciBuddy is for supervised, awake cuddle time — in your arms, on the playmat, in the stroller.

Sleep goes solo.
For naps and nighttime, babies sleep alone, on their back, in a bare crib — no plush toys, blankets or pillows (AAP).

Check before each use.
Look over seams, the pacifier and the attachment. Replace the pacifier if it shows any wear.

Keep it clean.
Remove the pacifier first, then wash the plush following the care label.
